### Introduction to Negative Painting

Negative painting is the technique of painting around a subject (the negative space) to define it in the composition. During the one-day class you'll build confidence in handling glazes, wet into wet and under-paintings. Discover how to create interesting passages in your paintings with overlapping and interlocking shapes. Strengthen your understanding of pigments and how they directly relate to the complex medium of watercolor.

The workshop will be held at Coastline College, 1515 Monrovia, Newport Beach, CA, in the classroom adjacent to the art gallery.
